Brendermann

Application No. 10/075,221

Filed: November 13, 2002

For: PROPRIOCEPTIVE DEVICE THAT

CONTRIBUTE THE PROPERTY OF THE

CONTAINS NUTRIENTS FOR THE

TREATMENT OF STRATURAL DISEASES

This decision is in response to the petition to withdraw the holding of abandonment under 37 CFR 1.181 filed May 20, 2005 and supplemented June 20, 2006.

The petition is hereby DISMISSED.

Any request for reconsideration of this decision must be submitted within TWO (2) MONTHS from mail date of this decision. Extensions of time under 37 CFR 1.136(a) are permitted. The reconsideration request should include a cover letter entitled "Renewed Petition under 37 CFR 1.181." This is not a final agency decision.

This application became abandoned March 20, 2004 for failure to timely submit a proper reply to the final Office action mailed October 19, 2004. Notice of Abandonment was mailed May 4, 2005.

Petitioner alleges a response to the final Office and a petition for two-month extension of were timely submitted on March 31, 2005.

Petitioner is advised that the response submitted March 31, 2005 is deemed untimely.

The final Office action, mailed October 19, 2004, set a three-month shortened period of time for reply, making a response due on or before January 19, 2004. The period of time for reply was extensible up to three months, provided a timely petition for extension of time and required fee were submitted.

A response to the final Office action was submitted November 18, 2004. The response, however, failed to place the application in

condition for allowance, as indicated in the Advisory Action mailed February 2, 2005.

The Advisory Action further indicated that the period of time to respond to the final Office action expired as of the mail date of the Advisory Action (February 2, 2005) or the date set in the final Office action (January 19, 2005), whichever is later. Accordingly, the period of time to submit a proper reply to the final Office action expired on February 2, 2005.

However, as the period of time to reply was extendible pursuant to 37 CFR 1.136(a), a proper response to final Office action could have been submitted as late as April 19, 2005 (accompanied by the appropriate extension of time fees).

Petitioner is under the mistaken impression that the Advisory Action reset the period of time for reply to the final Office action. As indicated in the Advisory Action, the period of time for reply ended January 19, 2005 or February 2, 2005, whichever date being later. Moreover, as indicated in both the final Office action and the Advisory Action, the period of time was extendible, however, in no event would the period of time for reply extend beyond six months from the mail date of the final Office action.

The period of time for reply to the final Office action continued to run from the mail date of the final Office action, not the mail date of the Advisory Action.

Accordingly, the reply submitted March 31, 2005 required a three-month extension of time. As only a two-month month extension of time was submitted, the application went abandoned.

ALTERNATE VENUE

Petitioner is strongly urged to consider filing a petition stating that the entire delay was unintentional. Petitioner's attention is directed to 37 CFR 1.137(b) which provides for the revival of an "unintentionally" abandoned application without a showing that the delay in prosecution or in late payment of an issue fee was "unavoidable." An "unintentional" petition under 37 CFR 1.137(b) must be accompanied by the required petition fee and reply.

The filing of a petition under 37 CFR 1.137(b) cannot be intentionally delayed and therefore must be filed promptly. A person seeking revival due to unintentional delay cannot make a statement that the delay was unintentional unless the entire delay, including the delay from the date it was discovered that the application was abandoned until the filing of the petition to revive under 37 CFR 1.137(b), was unintentional. A statement that the delay was unintentional is not appropriate if petitioner intentionally delayed the filing of a petition for revival under 37 CFR 1.137(b).
